

FARM NEWS

By Tom Cosadov, County Extension Chairman

4-H PROJECTS
I met with 4-H Club boys last week at Kinross, Zion Chapel, Damascus, Mt. Pleasant, and Goodman. A lot of boys are selecting and we greatly appreciate their support.

NEW REPORT
Coffee County farmers and others who are sending soil samples to Auburn will receive a somewhat different report from those in the past. One of the main differences is that grades of fertilizer will not be given such as 4-12-12 or 8-8-8 instead the number of pounds of actual phosphorus and potassium will be given, for example, the recommendation on corn might call for 30 pounds of phosphorus and 30 pounds of potassium, in this case most farmers would simply use 400 and this would give the recommended amounts of fertilizer nutrients.

WATER SYSTEM
Basin Community is making plans for a community water system similar to those which are being worked on in the Mt. Pleasant and Damascus communities.

FRANK BRITT FAMILY
The Frank Britt family of Mt. Pleasant will be honored at a Master Farm Family Dinner banquet in Auburn Wednesday, January 26. Home Agent, Sara Hutchinson, and I will be attending this special occasion with them. We join all the people in the Mt. Pleasant Community and in fact other Coffee County residents who know the Britts in congratulating them on this achievement. I know this will be a memorable event for all of the family.

TRUCK CROPS
A Truck Crops Dinner Meeting was held Tuesday night, January 18, at Paul's Cafe in Elba. We had a good group of growers to attend this meeting. Production and marketing specialists from Auburn, M. R. Glasscock, and Perry Smith led a discussion on Production, Marketing, and Outlook for 1966.

Tri-State Weather Outlook Released
The Thirty Day Agricultural Weather Outlook for the period mid-January thru mid-February for South Georgia, Southeast Alabama and Northwest Florida issued by the Weather Bureau Advisory Agricultural Meteorologist, Georgia Coastal Plain Experiment Station, Tifton, Georgia, January 15, 1966 is as follows:

Temperatures during the period mid-January thru mid-February are expected to average below normal over all of the Tri-State agricultural area. Daily maximum temperatures will range from 40 to 60 degrees with afternoon temperatures reaching 75 degrees or higher on 2 or 3 days during the period. Daily minimum temperatures will average between 30 and 47 degrees with early morning temperatures falling to 32 degrees or lower on 3 or 4 mornings during the period.

Sunshine during the period mid-January thru mid-February is expected to be normal.

to average about 55 degrees of possible with several degrees of extended cloudiness.

Soil temperatures during the next 30 days are expected to remain at near yearly minimums. Temperatures under four inches of bare soil are expected to average between 48 and 58 degrees.

LAND OPEN TO PUBLIC

Today, over 50 million acres of land—about 80% of the entire acreage owned by paper companies and independent woodland owners—are open to the general public, reports the American Paper Institute. Plus nearly 40,000 miles of streams for fishing and 750,000 acres of lakes for boating and swimming.

... about your

SOCIAL SECURITY ...

If you work after you apply for social security benefits and earn \$1500 or less in a year beginning in January, 1966, you will receive all your social security payments for the year, Harry N. Scott, social security district manager in Dothan, announced recently.

Beginning in 1966, if you earn more than \$1500 in a year, the general rule is that \$1 in benefits will be withheld for each \$2 of earnings over \$1500 and up to \$2700. If you earn over \$2700 in a year, \$1 in benefits will be withheld for each \$1 earned over \$2700.

There are two exceptions to this general rule: (1) If in any month you neither earn more than \$125 working for someone else nor do substantial work in a business of your own, you will get your benefit for that month no matter how much you earn in the rest of the year.

Because of this change, you cannot lose by applying as soon as possible for any benefits due you even though you continue to work, Mr. Scott said.

For more information, contact your social security office now located in the Federal Building, 100 West Troy Street, Dothan, Ala. 36001.

If a person works after applying for retirement benefits, the additional earnings may increase the amount of his monthly payments, Mr. Scott continued.

The Social Security Administration will use its electronic computers to determine whether your recent earnings will increase the benefit amount. If so, the increase will be made automatically and no application is necessary to have the benefit refigured.

Because of this change, you cannot lose by applying as soon as possible for any benefits due you even though you continue to work, Mr. Scott said.

For more information, contact your social security office now located in the Federal Building, 100 West Troy Street, Dothan, Ala. 36001.

If a person works after applying for retirement benefits, the additional earnings may increase the amount of his monthly payments, Mr. Scott continued.

The Social Security Administration will use its electronic computers to determine whether your recent earnings will increase the benefit amount. If so, the increase will be made automatically and no application is necessary to have the benefit refigured.

Because of this change, you cannot lose by applying as soon as possible for any benefits due you even though you continue to work, Mr. Scott said.

For more information, contact your social security office now located in the Federal Building, 100 West Troy Street, Dothan, Ala. 36001.

Hopefuls Announce In Surgery For State Offices

GOV SPARKS FOR ATTORNEY GENERAL
Former State Revenue Commissioner Guy Sparks, of Anniston, announced Tuesday night that he is a candidate for the office of State Attorney General.

Announcing his plans in a speech to a civic organization in his hometown, Sparks said, "I will run for the office of Attorney General not for gain, not for power, but for service to all the people."

The 38-year-old Sparks served as State Revenue Commissioner from 1961 to 1963.

Sparks is married to the former Gail Shelton of Anniston and is the father of five children. He and his family are members of the First Methodist Church in Anniston.

RICHARD BEARD FOR COMMISSIONER
Richard (Dick) Beard, President of the Alabama Citizens' Association and an operating farmer in the state for 30 years, announced recently that he will be a candidate for the office of Commissioner of Agriculture.

At the same time he stated that Pete Gilmer, who served as Administrative Assistant to former Agriculture Commissioner Frank Stewart and R. C. Red Bamberger, is actively supporting his candidacy. Gilmer will serve Beard in the same capacity.

Mr. Beard is married to the former Emma Pope and have two sons—Richard, Jr., associated with his father in Glendale Mills, and Edward, business in Louisiana. He has been a member of the Trussville City Council for 9 years, is Past President of the Civitan Club, and an elder in the Trussville Presbyterian Church.

A HAPPY BIRTHDAY — The home office force of National Security Insurance Company honored its president, Mr. W. L. Brunson, with a delightful birthday party Friday night. For the occasion, the lobby and reception rooms of the office building were appropriately decorated.

A delicious supper was served to approximately 50 guests, including the guest of honor and his family.

Pictured above with Mr. Brunson, is his wife, Carolyn, guests of Mrs. J. R. Clark and Mr. Fred Folsom.

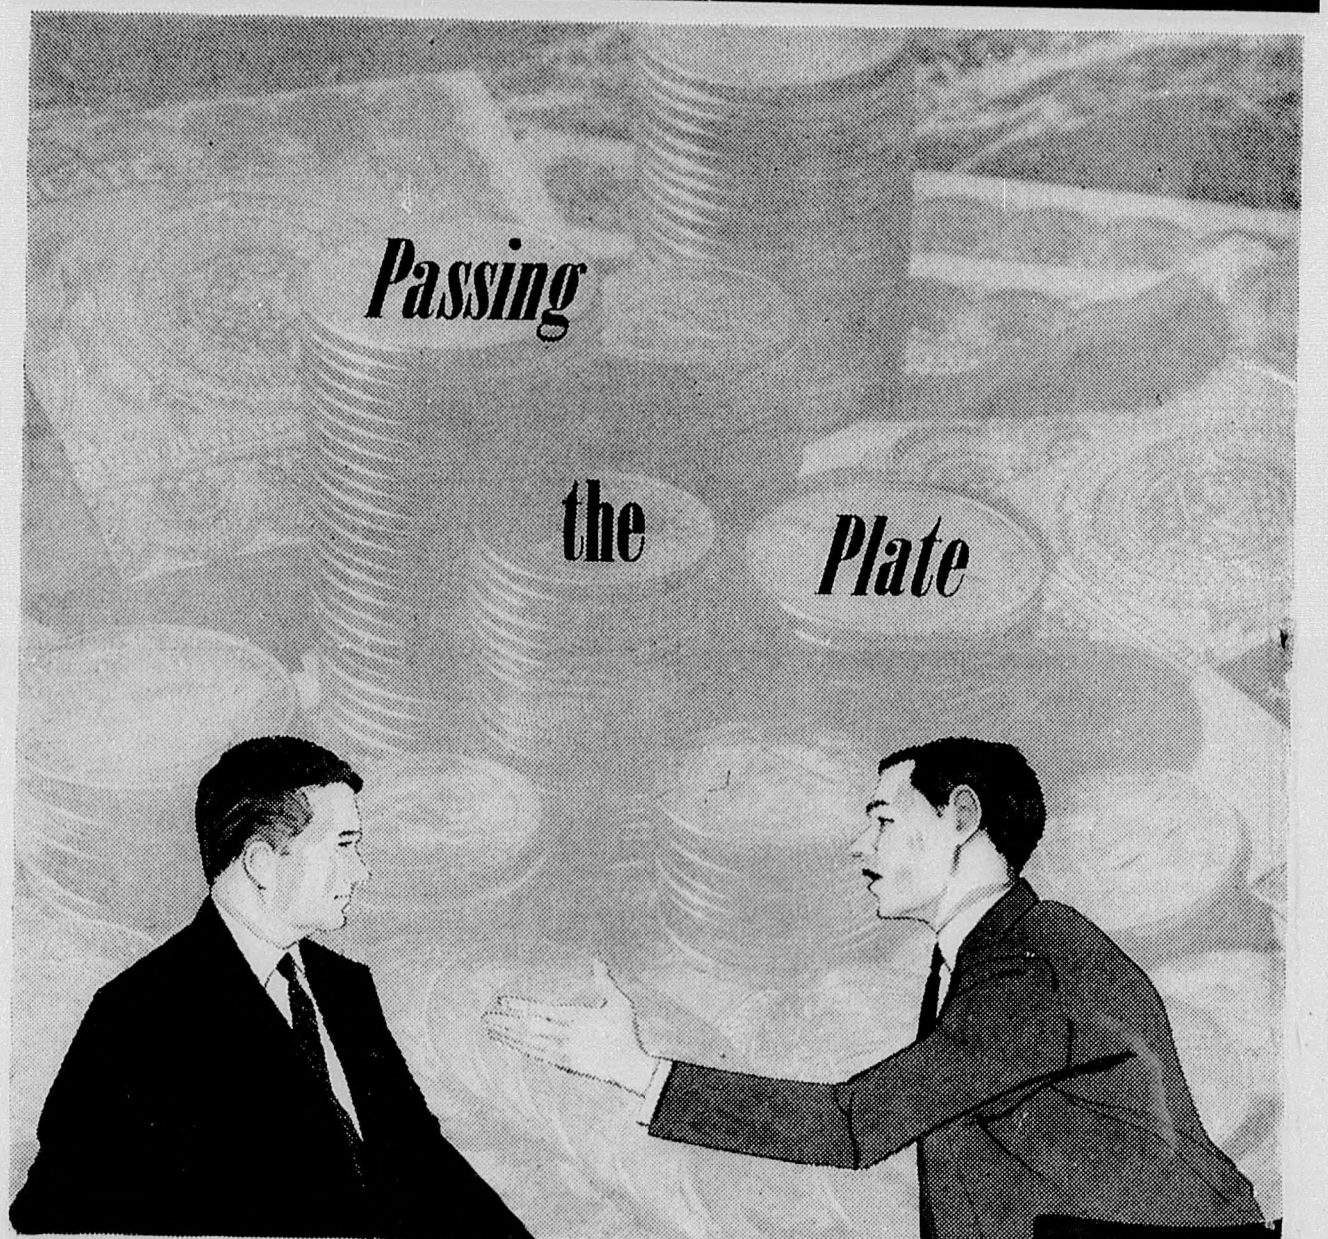

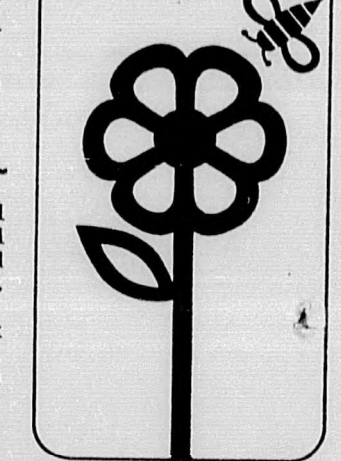

Mrs. L. P. Morrow Sr. is recovering from major surgery at Gibson Hospital in Enterprise.

Mr. and Mrs. Rex Stewart, of Montgomery, spent the weekend with their parents, Mr. and Mrs. Clinton Stewart and Mr. and Mrs. Elton Lunsford.

Mr. and Mrs. Ted Oughterson, of Stuart, Florida, were weekend guests of Mrs. Oughterson's sisters, Mrs. J. W. English and Mrs. Elwood Taylor.

Miss Henriette Taylor has returned to her home in St. Petersburg, Florida, following a visit to her parents, Mr. and Mrs. Hershel Taylor.

Buzzzzz busy, busy people find FLORISTS fast in the YELLOW PAGES. Where your fingers do the walking.

Jim Branch works in our local bank. I've known him for years. We went to school together. But I never felt I could come right out and ask him why he never goes to church. One night when we both happened to get into a confidential frame of mind, the words came easier.

He told me that — of all things — it was because he hated this business of passing the plate for money. He said he saw enough money at the bank all week without seeing it worshipped on Sunday too.

I admit this shocked me. That's why I told him, frankly, that I thought he'd completely missed the point. I told him our minister once said that it gives him a good feeling when he receives the collection; not because this is money but because the people are giving the fruit of their own effort. To God. In the old days, it might have been a sheep, or the choicest fruits and vegetables from the harvest. Today, it's dollars and cents. But the motive is still the same, and it's a good motive.

I saw Jim at the morning service a couple of weeks ago, and something tells me that it won't be long before he'll be getting the point . . . not missing it!

Heart Disease Responsible For Many Deaths In State

Diseases of the heart and blood vessels were responsible for 15,714 of 31,330 deaths in Alabama during the last calendar year for which statistics are available, it was disclosed recently by Mr. Arthur Tonsmiere, Mobile, State Chairman of the 1966 Heart Fund Campaign. This was 50.1 percent of the total of all deaths, he said, and compares with a current national toll of 54 percent attributable to these diseases. The Heart Fund will begin its campaign on February 1st and will continue through the entire month of February, National Heart Month.

"Nationally," said Mr. Tonsmiere, "the overall economic cost of heart disease has been placed at \$4 billion yearly, or about \$21 per person. If that average can properly be applied to our own state population of 3,415,000 it follows that the economic cost of heart disease in this state is somewhere in the neighborhood of \$71,735,900."

Mr. Tonsmiere said there is but one way through which the individual can contribute to reduce the toll in death, disability, suffering and economic cost, namely, by joining the Heart Fund Campaign for its programs of research, education and community service.

"The massive research and supporting programs which began just after the first Heart Fund Campaign in 1949 are now starting to pay off in life-saving advances," he said. "Since 1950 we have seen a decline of 15 percent in the cardiovascular mortality rate for those aged below 65, and an even more drastic reduction in the rate applying to children and young adults. There was an overall decline of 7-1/2 percent in the cardiovascular death rate, 1950-1962, for American males aged 45-64."

The Heart Fund Campaign will reach its high point during the 3-day period climaxed on Heart Sunday-February 20, when an estimated 18,000 Alabama Heart Sunday volunteers will join 1,750,000 others throughout the nation to visit their neighbors, distributing literature on how to reduce every family's risk of heart attack, and also to receive Heart Fund contributions. (Due to Mardi Gras-Heart Sunday in Mobile will climax on February 27th.)

Following the ritual led by the regent, Mrs. Harry E. Lane, Miss Mabel Brunson, chaplain, led the devotion.

Business included reports of officers and chairmen of standing and special committees. Mrs. Gloria Brady of Elba, was received into the chapter as a new member. Announcement was made of the state meeting in Mobile in March and delegates were appointed.

The President General's Message was given by Mrs. W. C. Braswell, Mrs. Willard Martin, National Defense Chairman, gave the talk on National Defense.

Those who called on Mrs. John Kendrick, of the Zion Chapel Community, Sunday were: Mrs. Wayne Brown, Mrs. Bert Wilks, Mrs. Bessie Dean, Mrs. Nell Wilson and girls, Mrs. Wayne Rugg and girls, Mrs. Robert Moore was a weekend guest of Mrs. Kendrick.

A Columbus newspaperman, Charles L. Black, will tell the wives of soldiers in this area of combat life in Viet Nam. He will speak to the wives of enlisted men and officers Thursday (today) at 10 a.m. in the Main Officers' Club ballroom. He will also address the Bogardus S. Cairns Chapter, Association of the U.S. Army at a business meeting on Thursday night at 7 in the Non-Commissioned Officers' Officers' Mess at Fort Rucker.

Fort Rucker officials said the wives of soldiers, whether stationed here or assigned to Viet Nam, have been invited to hear Black. The writer specializes in reporting on the reactions of men to combat. He has just completed a second tour in Viet Nam.

Steps to reduce your risk of heart attack

State Draft Call Gets 10 From Coffee

State Director Glen Curlee said recently that 829 young Alabamians would be called to the induction station in February to meet the state's Selective Service quota of 423 men. This is to make up for those who will be lost to enlistment in the regular service, National Guard, or Reserves, prior to induction, and for those who will be rejected for physical, mental, or moral reasons.

Included will be young men 19-years and older, I-A or I-A-O, examined and accepted. The county-by-county call for Alabama includes ten men to be furnished from Coffee County.

Federal funds are now available on a matching basis for library construction in Alabama. The Alabama Public Library Service is sponsoring a two-day workshop for community planners that have projected public library construction as an immediate objective.

Governmental officials, library trustees and committee members, librarians and technical personnel are invited to attend the workshop.

The institute will be held February 16-17 at the administrative building in Montgomery. George G. Johnson, administrator for Cross Trails Regional Library, said that he hoped many interested persons would attend from this region. Information will be given regarding procedures to applying for a library or re-modeling grant, requirements, etc. Deadline for applying for assistance under the Library Services Construction Act is March 18, 1966. The Alabama Public Library Service administers the program.

Baptist Brotherhood To Meet In Elba

The Baptist Brotherhood of Coffee County will meet at the Westside Baptist Church in Elba, Thursday evening, February 3, at 7:00, according to the president, Harold Moody, of Elba.

Reverend Welby Bozeman is host pastor and W. C. Mooney is local Brotherhood president.

Doctor Vernon Yearby of Montgomery, associate in the Baptist Foundation of Alabama, will be the principal speaker. He is a former Secretary of Evangelism for the Alabama Baptist State Convention. More recently he was in the Department of Evangelism of the Baptist Home Mission Board in Dallas, Texas.

All of the men and boys of the churches are urged to attend this meeting and hear Doctor Yearby. Special music has been planned for the program, along with testimonies by several laymen. Visitors are welcome to attend.

New Farm Feed Grain Applications Must Be Filed By February 15

Any farmer who does not have a Feed Grain Base and desires one for his farm for 1966 must apply on Form MQ-25 at the Coffee County ASCS Office by February 15, 1966. Farmers who receive new farm bases are not eligible to participate in the Feed Grain Program, but will qualify for payment on other farms by planting within the new farm base.

In order to qualify for a new farm base all the following requirements must be met:

(1) Each request must be signed by the person making the request.

(2) The request must be filed on Form MQ-25 in the County ASCS Office.

(3) The farmer must not own or operate another farm which qualifies for an old farm feed grain base or for which a new farm application is filed.

(4) There must be suitable land available for the production of the food grain for which a base is requested and the continuous production of such feed grain will not result in an undue erosion hazard.

(5) The operator has adequate equipment and facilities necessary for the successful production of the feed grain base on the farm.

(6) The operator expects to obtain more than 50 percent of his income from production of products from the farm for which the new farm application is filed.

(7) The farmer must not own or operate another farm which qualifies for an old farm feed grain base or for which a new farm application is filed.

(8) The farmer must not own or operate another farm which qualifies for an old farm feed grain base or for which a new farm application is filed.

(9) The farmer must not own or operate another farm which qualifies for an old farm feed grain base or for which a new farm application is filed.

(10) The farmer must not own or operate another farm which qualifies for an old farm feed grain base or for which a new farm application is filed.

(11) The farmer must not own or operate another farm which qualifies for an old farm feed grain base or for which a new farm application is filed.

(12) The farmer must not own or operate another farm which qualifies for an old farm feed grain base or for which a new farm application is filed.

(13) The farmer must not own or operate another farm which qualifies for an old farm feed grain base or for which a new farm application is filed.

(14) The farmer must not own or operate another farm which qualifies for an old farm feed grain base or for which a new farm application is filed.

(15) The farmer must not own or operate another farm which qualifies for an old farm feed grain base or for which a new farm application is filed.

(16) The farmer must not own or operate another farm which qualifies for an old farm feed grain base or for which a new farm application is filed.

(17) The farmer must not own or operate another farm which qualifies for an old farm feed grain base or for which a new farm application is filed.

(18) The farmer must not own or operate another farm which qualifies for an old farm feed grain base or for which a new farm application is filed.

(19) The farmer must not own or operate another farm which qualifies for an old farm feed grain base or for which a new farm application is filed.

(20) The farmer must not own or operate another farm which qualifies for an old farm feed grain base or for which a new farm application is filed.

(21) The farmer must not own or operate another farm which qualifies for an old farm feed grain base or for which a new farm application is filed.

(22) The farmer must not own or operate another farm which qualifies for an old farm feed grain base or for which a new farm application is filed.

(23) The farmer must not own or operate another farm which qualifies for an old farm feed grain base or for which a new farm application is filed.

(24) The farmer must not own or operate another farm which qualifies for an old farm feed grain base or for which a new farm application is filed.

(25) The farmer must not own or operate another farm which qualifies for an old farm feed grain base or for which a new farm application is filed.

(26) The farmer must not own or operate another farm which qualifies for an old farm feed grain base or for which a new farm application is filed.

(27) The farmer must not own or operate another farm which qualifies for an old farm feed grain base or for which a new farm application is filed.

(28) The farmer must not own or operate another farm which qualifies for an old farm feed grain base or for which a new farm application is filed.

(29) The farmer must not own or operate another farm which qualifies for an old farm feed grain base or for which a new farm application is filed.

(30) The farmer must not own or operate another farm which qualifies for an old farm feed grain base or for which a new farm application is filed.

50 percent of his income from production of products from the farm for which the new farm application is filed.

(7) Operator of farm for 1966 must have had experience in growing peanuts at least 2 of the preceding 5 years.

Should any farmer meet all these requirements he may file application for a new farm peanut acreage allotment at the Coffee County ASCS office in New Brockton, Alabama.

Another large shipment of cattle is due to leave Alabama's Port of Mobile again this February as in February of last year.

John Bauer, head of the company, stated that at least 50% of these feeder cattle would move from Alabama, through the Port of Mobile, the first shipment to take place the latter part of next month.

Some twelve shiploads of 1,000 head each would be involved.

Bauer went on to say that 2,000 Tons of frozen meats (poultry and red

meats) would be loaded on the Ship Ellenburg in February, out of the Port of Mobile to Europe. In addition, he and Commissioner Todd have worked out a plan to export several shiploads of eggs, purchased in the State of Alabama, and to be consigned to the Com-missioner Todd pointed out.

With the decrease in cotton acreages and in some other row crops, Coffee County 4-H'ers can concentrate more on livestock projects.

PEANUTS Alabama has an average of 1400 pounds of peanuts in 1965, Georgia's average yield was 1800 pounds per acre. This is a difference of about \$45 per acre. If we could reach the Georgia yield, our income would be approximately \$1 million extra each year.

Mr. D. Bond, our Peanut Specialist, says that we need to keep emphasizing that high yields of peanuts can be made if all recommendations are carried out.

TRUCK CROPS We had an excellent truck crops meeting a few nights ago in Elba. The dinner was sponsored by the four banks in Coffee County. Over 30 growers were present at this meeting. Two Auburn Specialists, M. B. Glasco and Perry Smith, outlined production and marketing opportunities. Jake Morrow discussed the Elba Pea Market. Robert Stephens of Damascus was re-elected Coffee County Director of the Farmers Produce Market. With decreasing acres of corn and cotton, we have plenty of acres to plant truck crops.

COOPERATION One of the pleasures of being associated in extension work in Coffee County is the excellent relationship that we have with the banks in the county. I don't believe that banks anywhere could be any more cooperative than the ones we have here and the ones we have in promoting an expanded agriculture production and marketing program. It's certainly always a pleasure for me to have the fine cooperation of our banks in promoting more prosperous agriculture in this great county.

HOW TO AVOID ACCIDENTS...Safety in the kitchen is no accident; it requires careful planning. Good work habits are basic. Here are a few tips on how to stay safe in the kitchen.

To avoid falls, a prime accident hazard, wipe up all fat splatters and spills as soon as they occur. Avoid excess wax. Buff the floor well following waxing.

Have a steady stool for reaching a high object. Never trust a rickety one. If tightening all screws and bolts does not make the stool firm and steady, it's time to replace it.

Many burns, another cause of serious accidents, can be prevented. Store lifting tongs close to the cooking center. Pot-lifters

list. Roses are best suited to private areas of the home grounds such as the side or back yard. Here they get at least six hours of sunlight a day and don't have to compete with other plants.

Step two is preparing the beds. Contrary to what many folks think, roses can be grown in practically any type of soil from a sandy loam to a heavy clay, provided it is well-drained.

The broken rock, brick or cinders should be used in the bottom of the bed to provide drainage in poorly-drained soils and be sure to buy mature field-grown plants from a reputable local nursery, preferably No. 1 grade.

Set the plants in holes 12 inches deeper than the root system with the graft union slightly above ground. A small cone-shaped mound of soil should be placed under the plant to spread the roots. Work fine soil around the roots until they are covered and then thoroughly soak. Finish by filling the hole with dry soil.

FOOT NOTES...When you shop for shoes, put your big foot forward. It's the best foot for measuring, since this helps get a better fit. The difference between one shoe size and the next is a mere 1/16th of an inch.

As shoe styles change, so do sizes. Changing from a sedentary job to an active one can cause a change in shoe size. When fitting shoes, try on both shoes and ask if you can walk on a hard surfaced floor. Your walking will be chiefly on hard surfaces, and this helps judge comfort. Try a combination last. If a snugger heel fit is needed,

Set the plants in holes 12 inches deeper than the root system with the graft union slightly above ground. A small cone-shaped mound of soil should be placed under the plant to spread the roots. Work fine soil around the roots until they are covered and then thoroughly soak. Finish by filling the hole with dry soil.

FOOT NOTES...When you shop for shoes, put your big foot forward. It's the best foot for measuring, since this helps get a better fit. The difference between one shoe size and the next is a mere 1/16th of an inch.

As shoe styles change, so do sizes. Changing from a sedentary job to an active one can cause a change in shoe size. When fitting shoes, try on both shoes and ask if you can walk on a hard surfaced floor. Your walking will be chiefly on hard surfaces, and this helps judge comfort. Try a combination last. If a snugger heel fit is needed,

... about your
SOCIAL SECURITY . . .

This week the Social Security Administration mailed out over a million reminder letters to Medicare beneficiaries. Medicare officials who have not signed up for the supplementary medical insurance part of Medicare, known as Medigap, will receive an enrollment card for the medical insurance plan, which is available to those aged 65 and older. The 15-1/2 million social security and railroad retirement beneficiaries 65 and older, 90 percent of whom are over 70, of these people have sent back their cards, and 90 percent have checked the box for the medical insurance under Medicare.

"In Alabama, 210,683 people received Medicare kits and enrollment cards last fall," Harry N. Scott, social security district manager in Dothan, said today. "Most of the first week in January, 110,954 had signed up for the supplementary medical insurance plan."

"Many of the people who have not signed up may not understand how the plan will work and what it offers," he added. "The letter going out from social security headquarters in Baltimore, Maryland, this week should answer some of their questions."

and letter is another enrollment card in case they lost the first one or sent it to the wrong address since changed their minds. "For people now 65 or over," Mr. Scott emphasized, "it's a good idea to sign up for the supplementary medical insurance plan, as well as the Medicare program as soon as possible, by the date set off on the card." He also urged people to have their teeth examined by March 31, 1968.

"The medical insurance program, like the basic hospital insurance plan, will go into effect beginning July 1. People now over 65 who don't sign up by March 31 may have to

TO BE PREPARED

Being ready for emergencies means that our Rexall Pharmacist must keep fresh stocks on drugs that rarely ever may be used... just so the one drug you may need in an emergency will be available.

Rely on our Rexall Pharmacist to fill your next prescription promptly from our complete, fresh stock of pharmaceuticals.

extreme instances, the hands were encased in splints to make the nails inaccessible to the child. If the child had been nervous or anxious before, such drastic treatment increased his neurotic symptoms and sometimes led to real trouble.

Now it is generally accepted that most children respond without preventive

from parental bickerings, frequent change of residence, or birth of another child in the family is often mirrored in evidences of conflict such as nail-biting. The child often feels guilt.

largely caused by parental disapproval; and this guilt may greatly increase the child's difficulty. Guilt sensation brings fear of punishment which causes more nail-biting, then more guilty feelings and more fear.

Play therapy is frequently a means of distracting the child from his nail-biting.

PRACTICAL NURSING CLASS TO BEGIN MARCH 7

A new class in Practical Nursing will begin March 7, 1966 at the George C. Wallace State Technical Trade School, Napier Field, Alabama.

Interested women between the ages of 18 and 50 may receive more in-

formation by visiting the school or by calling 792-3188, extension 50.

Auto Safety Belts

NEW YORK — Experts estimate that more than 5,000 lives would be saved each year in the United States and that injuries would be reduced by one-third if everyone used auto seat belts, says the Insurance Information Institute.

**MRS. BENTON, MRS. ATKINS
ATTENDING SEMINAR**

Mrs. Virginia Benton and Mrs. Judy Atkins, of Virginia's Studio, Opp, Alabama, are attending a two-day natural portrait color seminar in Chamblee, Georgia.

Attendance is by invitation only.
